AWS ACADEMIC ACCESS

The American Welding Society is proud to announce a new standards library, **AWS Academic Access**, for schools teaching welding, welding technology, and metallurgy. This new library offering contains all **AWS** electronic standards, specifications, methods and guidelines, and is designed to support welding schools. We have made this collection affordable for all welding schools.

Digital library provides a starting point to understanding essential industry practices

- Access to over 250 standards
- No more wear and tear on print publications
- Priced with academic budgets in mind
- Robust search feature
- Campus wide access
- Multi-user license
- User-friendly platform
